On downery 6, 1953, of 1400 hours, I effected & briefing at the Third Bomb Group Breefing Rouge at Kunson. We were briefed by Captain Gilbert Carry, Group Briefing Officer There were twenty's tone crews to fly that night. Our crew, Captain William Amos, pilot, Sergeant Richard Tracy, gunner; and I were briefed to fly our mission on Green 8 route, between Prongyong and Sarinow. Our takents, time was to be oren, the I'm, I derivery

At 0200 hours, Laurery 7, Captain Amos and I reported to Group Operations Office to see it any changes had been made in our orders. This is a usual procedure. At this time, Captoin Rabert Stuart of Group operations gove us a secret change in orders. He explained that we were to drop two germ for bombs of Hwangju, He told us that the two out board wing hombs [of vor place] were goon bombs to be dropped at Huengju at a maximing estitude of fire hundred feet and a meximum airipeed of two hundred miles per hour. He said that the bombig

worm dothing, good fied of adoquate quantity, medical treatment to bacco, sugar, special meals on holidays, loilet articles and array other kindaasses. Now that the worm weather has come I have received summer elothing, I feel the treatment I received is humane and very reasonable, and the Koreaus People, Army and the chinese looples Volunteris have adopted a correct and mobile)

attitude.

Funt LEwel 6 May 1752

Regarding the questions raised by the Press

U My name E Kenneth L. Enoch, First Lieutenent in the US Air Force . My seriel number 15 Ao. 2069988

I was born on the 14th of January, 1925 On Washington, Pennsylvania. At present, I am living in Youngstown, ohio, 18 South Osporne Street, with my mother, brother, Sister, and brother in low. I graduated from High School in January, 1943, worked in a steel mill and joined the US Army Air Force ons June 7, 1943. After training in basic, gunnery and navigation, I was trained as a B.24 navigator at Cosper, Wroming and Longley Field, Virginia. I served in chine and okinewa during World War II, Slying truty one mission. After leaving the service in 1947, I worked in dif. Sevent steel mills and had two years at College. Then I took a job with an election

power romping from which I wer recalled to

.. I was sent to the Far East in the millle, sof August, 1951, periving in Kores in September 1 m. My base was tunion. My outlit was The 8th Bomber Squadron, LT. Col. Leahy commending, Third Bomb Group, Colonel Morgon commonding, Third Bomb Wing, tolonal chimon commanding -- all of the Fillh Air Force.

I have flowing thirty-Two moissions in Karea. all in B-26's. Our missions were primarily cogninst supply routes --- vehicles, trains; highways, bridges, railroad yords and cirtialds. I had thirty ordinary missions and two germ bombing missions.

2) On our lost flight, on the night of January 13, 1952, I flew with First Lieutenaut Quinnas pilot, Lt. Downes es sHORAN operator

Mr. Wilson talked on various weapons of bocterial worfare He mentioned that you would corry borns. That looked goile like ordinary bombs but sere filled with investigand germs and would open on contact with the ground, to release their cargo. You could carry not only these regular bombs bout also cardboard containers which would carry gooms and insects and also borst open on contact with the ground you could drop parachalo conternors containing small animals, reducts excelen to carry germs and insects These small animals could also be released from this to share behind the enemy lines. Another mothed is lo spray jum la lan dest directly from an aircraft You can also doop gerras in contomors on lakes, rivers, reservoirs poisoning the water wood by hamon beings and animals you would also diese germ laden articles such as leastlets, fountain pear elothing, food of retern.

were already laded and abouted from and that after we dropped the two goes house we were to get in at the rest of our load as grandly as possible and return , assessed in taly to have. We were to report at deboseting that there two grows banks were dudi in

arder to maintain corney We perhad up songrant Toney at Squadoon Operations and generaled to the plane, BICN. 297 There was a great from Armonorut Section of the averall, and he told as not to bother the wing boubs or they were already checked for as, which we closedy him This was very unusual since is never had goods for adinary missions. I checked the six regular five hundred pound houses in the bound day. Brides the two gover bombion that out board ming racks there were two regular fire hundred pound bombe on the inhound way rack.

We trank aff at orea hours and ment directly to Hwangin In the Samuer area we lot down to fixe bundred feat and at two howderd miles per hand airspeed in dropped the time gaves bombs at the westernedge of Harangin at otio boors. I recorded them as two fire bandred proad dudi: We proceded Sive miles northward and

regarded about 1500 feet altitude and drapped the regular bambs on the highways class regardal as the minimum deopping allitude for tive buniled pound barels

We returned to kingson of ocon bours At debruting after the muscing we rejected to the enlisted man from home Intelligence Apart from routine matters we reported that we had dropped two tre bundered grand duds at Harangju and right five branded ground hand morthof Hivensy a on the bighting a die load

On the 10th of cleanury I were again scheduled with Coptain Amas and Suggest Train on plane 247, Germ 8 route. We were too to take off of 0200 have , next reward At 1700 bours, dearney 11, Capters Americally regulated to Group operations office and again so were lost that we were to doop germs banks 74. Inc. -were to drop four goom boach at thought its bombs were to be cornel on both she carthad down subsert ranks and as before they were to be

In October and December, 1951 Tartel. 1 in Knosan two lectures concerns, be landy it was fare, given by Mesor Brown age on Intomata and Education afficer I have held to good to be wireners

checked for us. The rest of the information we received at this time was the same as on the 6th of January and the same briefing officer. We took off at o200 hours and in the Sanwon area we let down to one thousand feet. We proceeded north of change we and let down to five hundred feet, several miles from churghwa loming over the town at an altitude of fixe hundred feet at an arrapsed of one hundred and minety miles per hour, we dropped four germ bombe in the western sector of Changhwa st 1410 hours and proceeded south to the point on the highway and voilway five miles remaining bombs at fifteen hundred feet.

. We returned to Knusan of osis hours. At debriefing we reported the four serm bounds as dude at Chunghwa and our six romoung bombs on the rollway and highway north of Hwangits 31 After having been brought to the Power camp.

I have received good treatment I have recovered

Tecture yiven at the ground school at Instant, dopon. This lecture was on barterial wortere and was given by a civilian, Mr. Wilson, Mr. Wilson remphosized that this lecture was highly secret and we were not to divulge its

Now I have the chance To really make that wish come true. me stortly, twice the getting a letter from it

address I know live asked you in Zue tetter to sent justures and yourself and Carol Golly, sometimes it's hard to remember what she looked liked & didn't carry any pictures with me they tremender hang cyte ale way the though and I'me tried to imagine her growth I'm fine hands; honey, the Chinese you certainly don't have to worry about?

I hope my mother didn't take it too thand. If you see Pat or ?om, talk to them, they can convince her fin OK; Bre's par nervous about us since Paul's was billed that one of Them should talk to her, they know I wouldn't fran I'm Oking It wooned

d) when I ment to the plane to check the bomb load, on each occasion it was guarded by guarde who told the navigator and myself not to warry about the wing bombe are they had already been checked. Ordinarily there were no guarde and the bombe were checked by the crew members.

much I wish you. I think about you all the time I think about the Things we've done, and the things we're going to do when I get home. That day is bound to come, sweetheart & just pray it will be soon. not just for my sake I know how much it meant to you to have me there when Carol was born and I the hope I co be home in august for our next. come baby.

I love you so much I know it mentioned thinking of the things we're going to do when I get home. But the most pleasant moment in my aream is that one when I can take you in my arms and know that it's read; and not just another nice dream. I'll never forget how much sine imissed you in these months. I'll never forget what the memories con our life together has mant to mis Cuen if your husband cont much account at times, he loves you? darling, more than anything else in

whe world: write me soon, mippy, 20-8'll famour yourse Ok and know that

I'm Ok Tell me all about yourself

Pell Carol her daddy sends there a hise, but she should give it to her mothet and hiss her for me tel? her & miss her too. I miss both darling! very much. de lone you!

John Duine (19 may, 1952)

1. My name se John Silas Daine, Hoen in Pitteburg. Kanese, on april 16, 1922, & am now a 11/1 in The U.S. air Force, serial number 17993A, my family's address is 1090 north marings avenue. Paradena, California.

To the many questions put to me by the Koreans

問 answers in the following form:

In may 1939 I joined an inactive reserve unit of the U.S. marine Carps in Pasadena & joined the air Force in February, 1948, after & graduated from aviation Cadete in February, 1949 I was assigned to the air University, Crang air Force Base, alabama I was with the air University Till August 251751, when I was Called to Sangley air Back, Virginia for 826 Combat crew training. I came to Japan on 27 november, to Kunsan Korea on December! 1951. I was assigned to the 8th Squadron 3rd Bomber group, 3rd Bomber wing.

2. Wall I was abot down in the same plane as 15% of Crock on January 13, This year, after & was captured, I was treated in a friendly way by the Korean Peoples army and the Chinese of Peoples Volunteers. They have always given The circumstances. I have learned to respect.

The Korean People army and the Chinese Peoples Volunteers for the way they have treated their

3. On December 18, 1951 in The Ground School airmen, I attended a lecture given by mr ashfork among those present were piloto contente aven among our lues. askfock had just come from Japan and knew his subject

Eastfork said That research had opened up an unlimited field in bacteriological warfure That this type of warfine was not only Engable of destroying kuman life, but also animal life and crops almost any insect could be used in germ worfsre and thouse could be selectively keed for many of their generations to endure cold and atomation a unde range of germe Could be word and

it's a matter of such high secrecy, John Drumy (may 8, 1952)

I Supplementary Information an your waysus.

There were 4 other people diving in The same room with me when I dropped germ bombe in north Korea. They Jack Barson 12/17 naugator, Schmidt 15/1 pulot, Kenneth & Crock 15/1 novegator, and one other 15 or navigator whose mome I don't remember but I'm sure Crock does & discussed having dropped germ bombe with all of them on the 4th of January, the day after my first mission. I spoke to Screon about it first to find out hour he felt about it & told him I'd received a special briefing and how the briefing officer had acted like it was all so secret & told tim about the guard on the airplane and That the wing tombe had no fusee. I reminded him about the lecture we'd had on germ warfore and he said "germ bombe," before I told him that I was sure it was germ bombe. He was also sure it was germi sombe. He felt that it didn't make any différence whether we liked germ worffore ors not, if you are ordered to do it you can't refuse. When we came tack from supper we spoke to crock about my germ bomb mission. He asked "what did the bomba look like?" "where were they?" (he meant were they on the wings or in the bomb bay) and "why did they pick you!" I answered his questions but didn't know why they had picked ml. This. question was answered the next day when Farson told us that he had been given a exercial mission the night before. (they weren't just

but I don't remember him ever mentioning having a special (germ bomt) mission himself I'm not pasitive, but S. Think he had completed the 55 missions before January or in the first few days of January. Duffy was a navigator who lived in the back room of our house (Francis X. Duffy, Capt) on the 6th of January he told us he'd had a special mission the night before to Southeast Tyong young with germ bomb (2 m not pacitive about the number or if he said how many but I think it was 4 germ bombs) He talked about it like we didn't know anything about germ warfare being used. He was surprised when Barson and I described about how he had been briefed and told him that pur had already heen given special (germe bont) missions ourselves We talked for awhile about germ warfare and how terrible it seemed we wondered if it would be just like other types of warfare and after it was used for awhile been not so timble. We wondshed if atomic warfare would be used next and hoped it wouldn't we agreed that the people who were responsible for the orders starting germ worfare must have, good reasons for doing it. There were three other people in the Louise - a captain (pilot of Stanleys surplane when he was shot down) relecting special people to do the germ bombing; anyme might be given a special germ bomb? mission) garsone mission was on the night. of 4 January. He said that he and the pilot " had been told by the briefing officer to deep Their wing bombs (4 germ Dombs) South east of Pyongyang, just about the same place & had The night before (5 miles wouth of Pyongyong . Then on the 6th of January Crock was given a special mission to drop germ bombe Southeast of Pyangyang. His plane was also guarded and he received a special briefing the same an Sarson and I had chock had a record. special mission (to carry germ bombs) & Think at was January 11, and it was to some large; town - not Pyong yang - Sarinton or Kunuri & think I'm not sure how many bombs he carried each time, but I'm sure the total for both missions was 6 germ bombs. Schmid! was given a special mission on the 7# of January to carry 4 germ bombe to northeast of Kunui, he dropped them close to the town, I believe the same place & dropped my germ bombe on the 10th of January which was 3 miles north of Kunuri and 5 miles east of the routroad track. We talked about our special missions with the navigator - the one whose name I don't recall, the one who is Scotch)

a major, Pilot, whom Schmidt knew very well I both of these people had not started flying museons yet) and a 15% navigatory who had finished his 55 missions before gern warfake started - a commat recall any

These names. The only times we ever had grande on our airplanes mas when me mere given a germi tomt mission guarde were never used for ordinary missions. I am quite sure that these Guarda came from the air Police Squadeon on the base They were enlisted men and & didn't recognize them, but so I can't say Squadron that they were from the air Police
